What's in the guide?

This guide is written to provide ease of reference within three simple sections: Clean Mail basics, Clean Mail preparation and Clean Mail lodgement.

Section 1 – Clean Mail basics

This is essential reading and should be read first, as it covers the service at a glance, including features and benefits. This section provides you with a brief overview of the service and enough knowledge to ensure the correct solution has been selected for your mailing needs. You can then progress to the more detailed sections of Clean Mail preparation and Clean Mail lodgement.

Section 2 – Clean Mail preparation

This section provides the detail required to prepare articles ready for lodgement. It covers areas such as size and weight, article type and paper stock, through to inscriptions, layout and addressing requirements. This section equips you with all you need to know in order to correctly prepare your Clean Mail articles.

Section 3 – Clean Mail lodgement

This section provides the detail required to lodge articles. It covers areas such as how to prepare letter trays and completing and affixing tray labels, through to lodgement documentation and where to lodge articles. This section equips you with all you need to know in order to successfully lodge your Clean Mail articles.

1. Clean Mail basics

1.1 What is Clean Mail?

Clean Mail is an Australia Post service for the delivery of machine addressed¹ articles to addresses within Australia.

Clean Mail articles are designed to ensure that the addresses are compatible with Australia Post's automated letter sorting equipment which can efficiently process articles.

1.2 Why use Clean Mail?

With Clean Mail, you can:

- choose not to sort or barcode your mail
- lodge bulk mailings of 300 or more articles
- maximise the space available for creative artwork
- use the Registered Post service in conjunction with Clean Mail.

In addition, the Clean Mail service also:

- has access to Post Office Box addresses
- has access to the Redirection service
- allows a postage meter to be used as a payment method
- allows the choice of Priority or Regular delivery timetables
- has delivery with daily normal mail by the same professional delivery officers.

1.3 What qualifies for Clean Mail?

To qualify:

- the minimum quantity is 300 articles per lodgement
- each lodgement must consist of articles within the same size category
- all articles within a lodgement must originate from the same organisation
- all articles must be machine addressed.

Clean Mail articles do not need to be barcoded, however, if you choose to apply barcodes they must be correct.

1.4 How to apply

You do not need to apply for the Clean Mail service, however you need to provide a *Clean Mail lodgement document* (8838879) when lodging articles.

¹ Australia Post differentiates between mail that is addressed by hand (“Hand Addressed”) and where the address has been printed onto the article (“Machine Addressed”).

1.5 Preparation basics

Information in this section is designed to provide an overview of article preparation. More detailed information can be found in the Clean Mail preparation section.

1.5.1 Article size, weight and type requirements

Clean Mail is available for *Small* and *Small Plus* size categories. All articles in a lodgement must be within the same size category.

Articles can weigh up to 125 grams.

	Small	Small Plus
Maximum weight	125g	125g
Minimum size	88 × 138mm	88 × 138mm
Maximum size	130 × 240mm	162 × 240mm
Maximum thickness	5mm	5mm
Shape	Rectangular†	Rectangular†
Common examples	DL (110 × 220mm) C6 (114 × 162mm) DLE (114 × 225mm) DLX (120 × 235mm)	C5 (162 × 229mm)

† The length must be at least 1.414 times the width.

Articles can be either enveloped or as postcards, however plastic wrapped articles are not accepted.

→ See section 2.2

1.5.2 Correct addressing requirements

Articles need the addressed side to be printed with:

- 1 the Postage Paid Imprint (unless a postage meter is used)
- 2 the return address
- 3 a delivery address that observes the correct addressing conditions
- 4 the Priority delivery indicator, if this delivery timetable is selected.

→ See section 2.3

1.5.3 Adding logos, advertising and other printing

In order to access the Clean Mail service, articles must follow the requirements for clear zones on the front and back of articles.

→ See section 2.8

1.6 Lodgement basics

Information in this section is designed to provide an overview of lodgement. More detailed information can be found in the Clean Mail lodgement section.

Articles do not need to be sorted.

Simply face them all in the same direction and place into correctly labelled Australia Post letter trays, with the address sides facing the tray label end. Both trays and labels can be supplied by Australia Post.

If you have articles for both Priority and Regular delivery timetables then place them in separate trays.

If there are 2,000 or more articles it is preferred that you separate them into trays for delivery to each of the eight designated states and territories: NSW, ACT, VIC, QLD, SA, WA, TAS and NT.

You need to provide a *Clean Mail lodgement document* (8838879 – shown below) when lodging articles.

You can now prepare to lodge		3

2.2 Article characteristics

2.2.1 Article size, weight and shape

The size categories eligible for the Clean Mail service are *Small* and *Small Plus*. All articles in a lodgement must be within the same size category.

	Small	Small Plus
Maximum weight	125g	125g
Minimum size	88 × 138mm	88 × 138mm
Maximum size	130 × 240mm	162 × 240mm
Maximum thickness	5mm	5mm
Shape	Rectangular†	Rectangular†
Common examples	DL (110 × 220mm) C6 (114 × 162mm) DLE (114 × 225mm) DLX (120 × 235mm)	C5 (162 × 229mm)

† The length must be at least 1.414 times the width. Square articles are not accepted in the Clean Mail service. You can obtain a convenient *Letter gauge* (8833667) from your lodgement facility to assist in measuring articles.

2.2.2 Article type

Clean Mail articles can be either envelopes or postcards.

Plastic wrapped articles are not accepted.

Window faced envelopes

One of the main requirements of panel envelopes is that they have good clear panels.

However, even very clear panels can cause sorting difficulties if they reflect light to any great extent. Please refer to Section 8 of the *Letter products and services guide* (available from auspost.com.au).

Open window panels are not permitted.

The recommended minimum size for window panels is 38mm high × 95mm wide.

The entire address block must be clearly visible through the window panel when the article is presented for lodgement. Please ensure it remains visible irrespective of insert movement.

2.2.3 Paper stock

Paper stock is an important consideration as it can affect the ability of high speed letter sorting equipment to process articles without damage.

Australia Post recommends that envelopes and cards comply with Australian Standards for the production of envelopes, Spec 4611 – 1999 (available at: <https://infostore.saiglobal.com>). For details refer to your paper supplier or envelope manufacturer or visit auspost.com.au/bulkmail. See section 2.10 Testing.

Paper stock colour

Australia Post recommends white paper or card for your articles, but light tints or half-tones are satisfactory. A general test is that the colours should come on or around the following range of 78 acceptable colour tones selected from the Pantone Matching System®.

100	101	106	107	113	114	120	121	127	128	134	135	136	141
142	148	149	155	162	169	176	196	203	217	250	263	277	290
304	317	331	332	337	344	351	358	365	366	372	373	379	386
393	400	406	413	427	434	441	453	454	460	461	467	468	474
475	482	488	489	496	502	503	510	517	524	530	531	538	545
552	559	566	573	579	580	586	587						

These 78 acceptable colours are shown at the back of this guide.

Because of the existence of subjective factors such as the varying degrees of colour perception and the varying conditions under which colours are viewed, cases may arise where doubt exists on acceptability of a particular colour. Australia Post can arrange a test, based on the above zone of acceptable colours.

2.2.4 Sealing of articles

Australia Post recommends each article be secured in a manner which would prevent entrapment of other postal articles. Any opening should not exceed 88mm.

Each article must be secured by a fastening that is *not likely to damage other postal articles nor injure persons handling it*. Where fasteners are used, they must be appropriate to the thickness of the article, and the ends closed together. Staples and any metal fasteners are discouraged, as they are likely to cause injury to staff handling the articles.

2.2.5 Article flexibility

Articles must be reasonably flexible to ensure that they can be processed through high speed letter sorting equipment.

Articles that are too rigid or stiff are ineligible for the service. Some examples of prohibited contents includes pencils, pens and items enclosed in a hard case.

2.3 Article layout and zones

Clean Mail articles are made up of three printing zones.

The following sections detail the dimensions of these zones, and specify the inscriptions to print within them.

Return address zone section 2.5 **Postage zone** section 2.4

Delivery address zone section 2.6

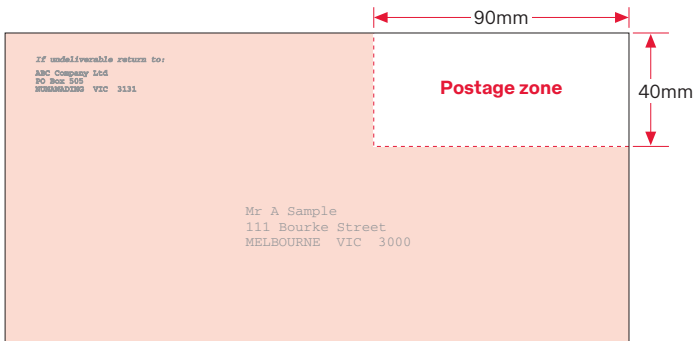

See also, **Adding logos, advertising and other printing** section 2.8.

2.4 Postage zone

The postage zone contains a postage paid imprint or a postage meter mark, and a Priority delivery indicator if the Priority delivery timetable is selected. No other inscriptions are permitted.

Dimensions must be:

- 90mm across from the top right-hand corner of the article
- 40mm down from the top edge of the article.

Variations to these requirements should be submitted for approval. See section 2.10.

2.4.1 Postage Paid Imprint

All articles that are not metered should bear a Postage Paid Imprint.

The words POSTAGE PAID AUSTRALIA need to be printed in a rectangular box within the following dimensions:

- maximum: 26 × 40mm (see illustration)
- minimum: 19 × 25mm.

Priority delivery indicator

All articles for which the Priority delivery timetable is selected should include a Priority delivery indicator, located at the bottom of the Postage Paid Imprint.

The word PRIORITY needs to be printed:

- in white capital letters, in a bold font (Helvetica Bold or Arial Bold recommended) at 10 to 14 point size
- in a solid rectangular box: 4 to 6mm high for wide imprints, or 6 to 10mm high for tall imprints.

See example illustrations below.

2.4.2 Personalised Postage Paid Imprint

Australia Post may approve a personalised imprint design. The design must not have the appearance of a postage stamp and the words POSTAGE PAID AUSTRALIA must be prominent (see example illustrations).

If the Priority delivery timetable is selected, the Priority delivery indicator must also be prominent at the bottom of the design.

For approval please refer to the contact details at the front of this guide.

2.4.3 Postage meter mark

A postage meter may be used as a payment method for the Clean Mail service.

The published price must be printed in the postage zone of each article. If a date is included in the meter mark it must be the date of lodgement.

Return address details appearing in the postage zone as part of a postage meter mark are acceptable.

If the Priority delivery timetable is selected, the word PRIORITY must be prominent.

For additional information on metering, refer to the *Postage Meters Conditions of use* booklet (8833675).

2.4.4 Colour of postage zone inscriptions

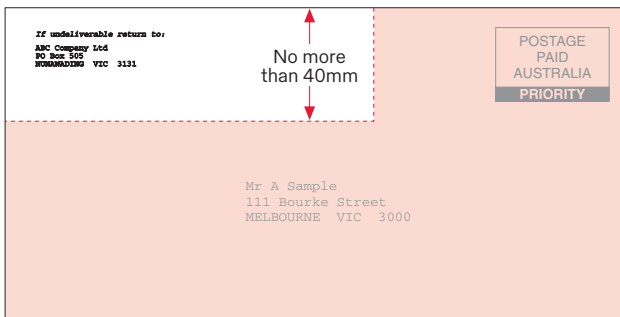

Any coloured ink can be used. Australia Post prefers dark colours such as black, dark blue and dark green.

2.5 Return address zone

An Australian return address is required to be shown on each article within a lodgement. Either a street address or a Post Office Box address is acceptable.

Australia Post recommends the return address to be:

- on the upper left-hand corner of the address side of the article
- no lower than 40mm from the top edge
- aligned left
- formatted in multiple lines as shown, not all on one line
- 8 point font preferred
- fixed pitch fonts (see section 2.6.3)
- with no bolding, punctuation or italics.

Return address details appearing in the postage zone as part of a postage meter mark are acceptable.

It is preferred that the return address be prefixed with "If undeliverable, return to:"

Variations to these requirements should be submitted for approval. See section 2.10.

2.6 Delivery address zone

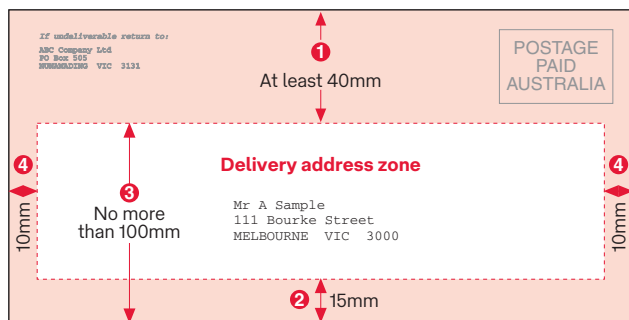

Contains the address to which the article is to be delivered.

Do not include any address other than the delivery address in the Delivery address zone.

2.6.1 Address location

The complete address must be positioned in the Delivery address zone of the article:

- 1 at least 40mm from the top edge of the article
- 2 at least 15mm from the bottom edge of the article
- 3 no more than 100mm up from the bottom edge of the article
- 4 at least 10mm from the left and right edges of the article.

2.6.2 Address layout

Correct addressing conditions ensure the Australia Post delivery system can recognise and interpret the delivery address.

- ❶ **Non-address information** such as customer reference codes, must be printed above the address.
- ❷ **Additional address information** such as business or person's name if included, must be placed above the last two lines of the address and not below, alongside or within these lines.
- ❸ **Second last and bottom lines** – Must be aligned left.
- ❹ **Second last line** – Must contain the number and name of the street or thoroughfare or Post Office Box or bag number.
- ❺ **Bottom line** – Must contain in the following order: the locality, the state or territory abbreviation and finally the postcode.
This line is to be printed in CAPITALS with no punctuation and no underlining.
Leave one or two spaces only between the locality, state or territory abbreviation and the postcode.¹

Address labels may be used but must be straight and firmly affixed.

If using window panel envelopes, the entire address block must be clearly visible through the window panel when the article is presented for lodgement. Please ensure it remains visible irrespective of insert movement.

The address must be parallel to the long side of the article.

2.6.3 Address fonts and colours

In addition to delivery address layout, articles need to comply with the following address font requirements:

- Fixed pitch fonts are recommended (such as Courier or OCRB, 12 point, 10 pitch). In fixed pitch fonts every character has the same width.

example: Mr A Sample
| | | | | | | | | |

¹ Any application for variations or additions to this format should be submitted and approved prior to lodgement. See section 2.10.

- If proportional fonts are used, it is preferred they be structured in 12 point, ideally Helvetica or Times 12 point. Print characters must not touch or overlap. In proportional fonts different characters have different widths.

example: **Mr A Sample**

- Artistic or script fonts must not be used. For example: cursive, fancy style fonts such as Brush Script.

example: *Mr A Sample*

- Print characters are acceptable between 1.8mm and 7.0mm high, and between 0.3mm and 7.0mm wide. The ideal height is between 2.0mm and 4.0mm (upper case characters of nominal 10 point and 12 point type generally fall within this range). Line spacing should be between 1.0mm and 2.5mm.
- Attributes such as *italics*, **bolding**, ~~shadowing~~, or underlining are not permitted.
- Dark colours such as black, dark blue and dark green are preferred. Red, orange and yellow inks must not be used.

2.7 Barcoding

Clean Mail articles do not need to be barcoded.

If barcoded, the correctly formatted barcode must be included within the 10mm clear zone detailed in section 2.8.1.

Articles that have incorrect, corrupt, out of specification or illegible 4-state barcodes are not eligible for access to the Clean Mail service.

Mr A Sample
111 Bourke Street
MELBOURNE VIC 3000

For more information please visit auspost.com.au/barcoding.

2.8 Adding logos, advertising and other printing

If you are adding logos, advertising or any other additional printing to your articles you need to consider the printing position and colour, so that your articles can be processed by our automated sorting equipment.

Some examples of other printing are company logos or slogans, advertising / marketing, watermarks and “open here” instructions on a re-usable envelope.

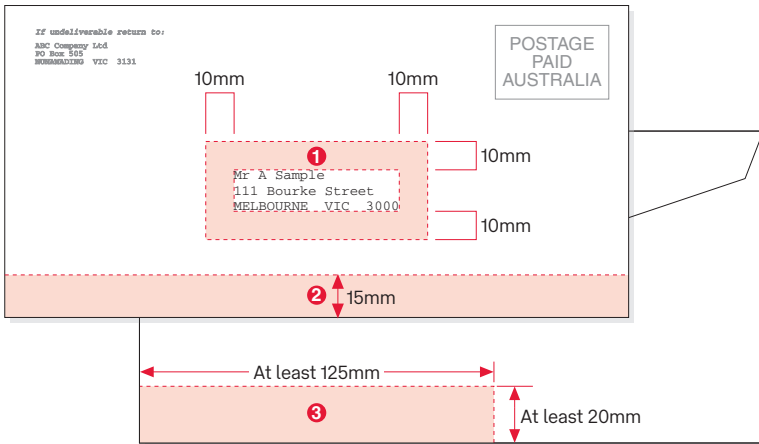

Please note layout options and clear zones are applicable for all article types, ie postcards, envelopes and other items.

2.8.1 Printing in the clear zones

Printing within the clear zones must approximate an approved colour. Refer to the colour chart at the back of this guide.

The clear zones are:

- ❶ On the front of the article – at least 10mm clear from the top, bottom, left and right sides of the address block
- ❷ On the front of the article – at least 15mm clear from the bottom edge
- ❸ On the back of the article – at least 20mm clear from the bottom edge, extending for 125mm from the left edge.

2.8.2 Printing outside of the clear zones

- ❶ Printing to the right of and below the address must be pictures / graphics only. Any text must be wholly contained within the graphic and not resemble any part of an address.
- ❷ Printing elsewhere outside of the clear zones can be of any kind, providing that it does not obscure the inscriptions in the postage zone and the return address zone.

If you are unsure please refer to the contact details in section 2.10 Testing.

2.9 Non-compliance

Acceptance staff at the lodgement facility will perform an inspection to determine if a lodgement satisfies the access conditions.

If articles within a lodgement do not satisfy the Clean Mail conditions, you have the option of:

- (a) withdrawing the lodgement, modifying and re-presenting it at a later date, or
- (b) lodging the articles at the full rate ordinary price applicable at the time.

2.10 Testing

If you are concerned that your articles may not satisfy all service requirements you can request a preliminary test prior to lodgement. Tests can be conducted on the following:

- shape
- window panel quality
- article colour, patterns or watermarks
- paper stock quality
- flexibility
- correct addressing compliance
- positioning of logos, advertising and other printing.

Australia Post provides preprinted tray labels at no cost, for each state: NSW, ACT, VIC, QLD, SA, WA, TAS and NT, and for each delivery timetable: Priority and Regular.

Order or obtain these labels from your local lodgement facility. Order forms may also be printed or downloaded from the Australia Post website auspost.com.au/traylabels.

The process for completing preprinted tray labels is as follows:

3.3.2 Labelling software

Australia Post recommends the use of Print On Demand labelling systems for preparing lodgements. Print on Demand systems are available either free of charge from Australia Post (*VISA Labelling*) or may be purchased from third party suppliers.

These labels must conform to specifications, which are subject to periodic review. Specifications may be obtained by downloading documentation from the Australia Post website auspost.com.au/traylabels. Third party software must be approved by Australia Post prior to use.

Blank label stock is also provided free of charge by Australia Post. This label stock is heat sensitive, and is suitable for use only in direct thermal label printers.

Please note that Print on Demand labels contain prepopulated information and differ in appearance to preprinted labels.

3.3.3 How to affix tray labels to letter trays

Label pockets are affixed to all letter trays.

Remove any old tray labels on trays prior to lodgement.

Place a completed tray label in the label pocket with the printed side visible.

3.4 Lodgement of articles

Once a lodgement is prepared, complete the required lodgement document and lodge your articles.

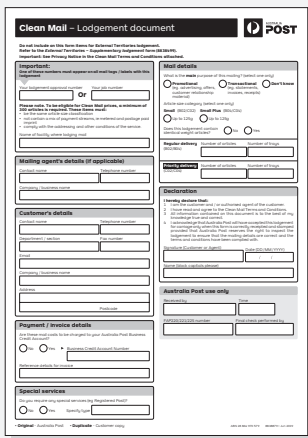

All articles in the lodgement must be within the same size category.

3.4.1 Lodgement documents

The type of documentation will vary depending upon whether a postage meter has been used. Obtain these documents from your local lodgement facility or download from auspost.com.au/cleanmail and auspost.com.au/metering. Please ensure that you are always using the latest version of the documents.

Non-metered articles

The form is titled "Clean Mail - Lodgement document" and features the Australian Post logo. It is divided into several sections: "Important" (regarding postage meter use), "Mail details" (for tracking and delivery options), "Mailing agency details" (if applicable), "Customer's details" (business name, address, phone), "Payment / Invoice details" (payment method and invoice number), and "Special services" (such as return receipt or insurance). There are also checkboxes for "Australia Post use only" and "Postnet".

Metered articles

The form is titled "Meter - Lodgement document" and features the Australian Post logo. It includes sections for "Customer's details", "Full rate lodgement" (with a table for "Postnet / Priority Mail lodgement" and "Clean Mail lodgement"), "Meter details" (for meter type and identification), "Special services", and "Distribution" (with a table for "Priority Mail lodgement" and "Postnet"). It also has checkboxes for "Australia Post use only" and "Postnet".

3.4.2 Where and when to lodge

Articles must be presented during business hours at an approved lodgement facility. Locate the closest, most appropriate facility by using the contact information at the front of this guide.

Due to limited spare capacity at some lodgement facilities you are requested to provide advance notice to the Officer-In-Charge of the facility for lodgements over 50,000 articles, no later than Friday of the week prior to lodgement. If you make regular lodgements at the same facility you can request a standing lodgement arrangement and avoid the need for notification.

For the delivery timetable to apply on the day of receipt, lodgements of Clean Mail must be made during the business hours applicable to the lodgement facility involved, but no later than 6pm.

Clean Mail articles cannot be lodged in street posting boxes.

3.4.3 Lodgement in ULDs

Steel cage containers known as Unit Loading Devices (ULDs) are used by Australia Post to transport mail articles within our network. They can be obtained from Australia Post, subject to availability and in instances where large mail volumes are to be lodged. Contact your mail facility for further information.

ULDs remain the property of Australia Post and all other rules and regulations pertaining to the use of the ULD are applicable. Australia Post reserves the right to charge for any ULD that you damage or do not return.

The maximum weight for a loaded ULD is 600kg (including the weight of the ULD which weigh around 100kg). This means that 500kg is available for the contents. Be aware that ULDs will often exceed the maximum weight limit before they are completely full. In order to maximise transportation efficiency and ULD utilisation, you should ensure that each ULD is used as efficiently as possible.

ULD labelling

It is a requirement that you affix a label to each ULD, containing the following information:

- 1 the name of the Mailing Agent
- 2 the delivery timetable selected (Priority or Regular), in a **bold** font, of at least 18 point size. For Priority delivery, Australia Post recommends printing this section using white font on a black background where possible.
- 3 the lodgement date (optional for Priority delivery, but must be correct if shown)
- 4 the number of ULDs in the lodgement (eg 1 of 8, 2 of 8, etc)
- 5 the gross weight (actual or deemed) of the ULD and its contents
- 6 the Job Number (or reference), and customer name for each individual job contained in the ULD
- 7 the number of trays for each individual job contained in the ULD (optional, but must be correct if shown).
